

FACT SHEET

KAZI is the AI work ecosystem that runs your entire business.

One integrated place for projects, clients, proposals, contracts, invoices and payments with escrow, time tracking, files, a client portal and business intelligence. AI is built into every step. Built in South Africa, made for the world.

WHY IT MATTERS

SA freelancers and agencies stitch together dollar-priced tools that can't take local payments. KAZI is priced in rand with Paystack live and milestone escrow that tackles late payment.

THE GAP

Work tools (ClickUp, Notion, Monday) don't move money. Money tools (HoneyBook, Bonsai) don't run the work and don't serve South Africa. KAZI does both, in one login.

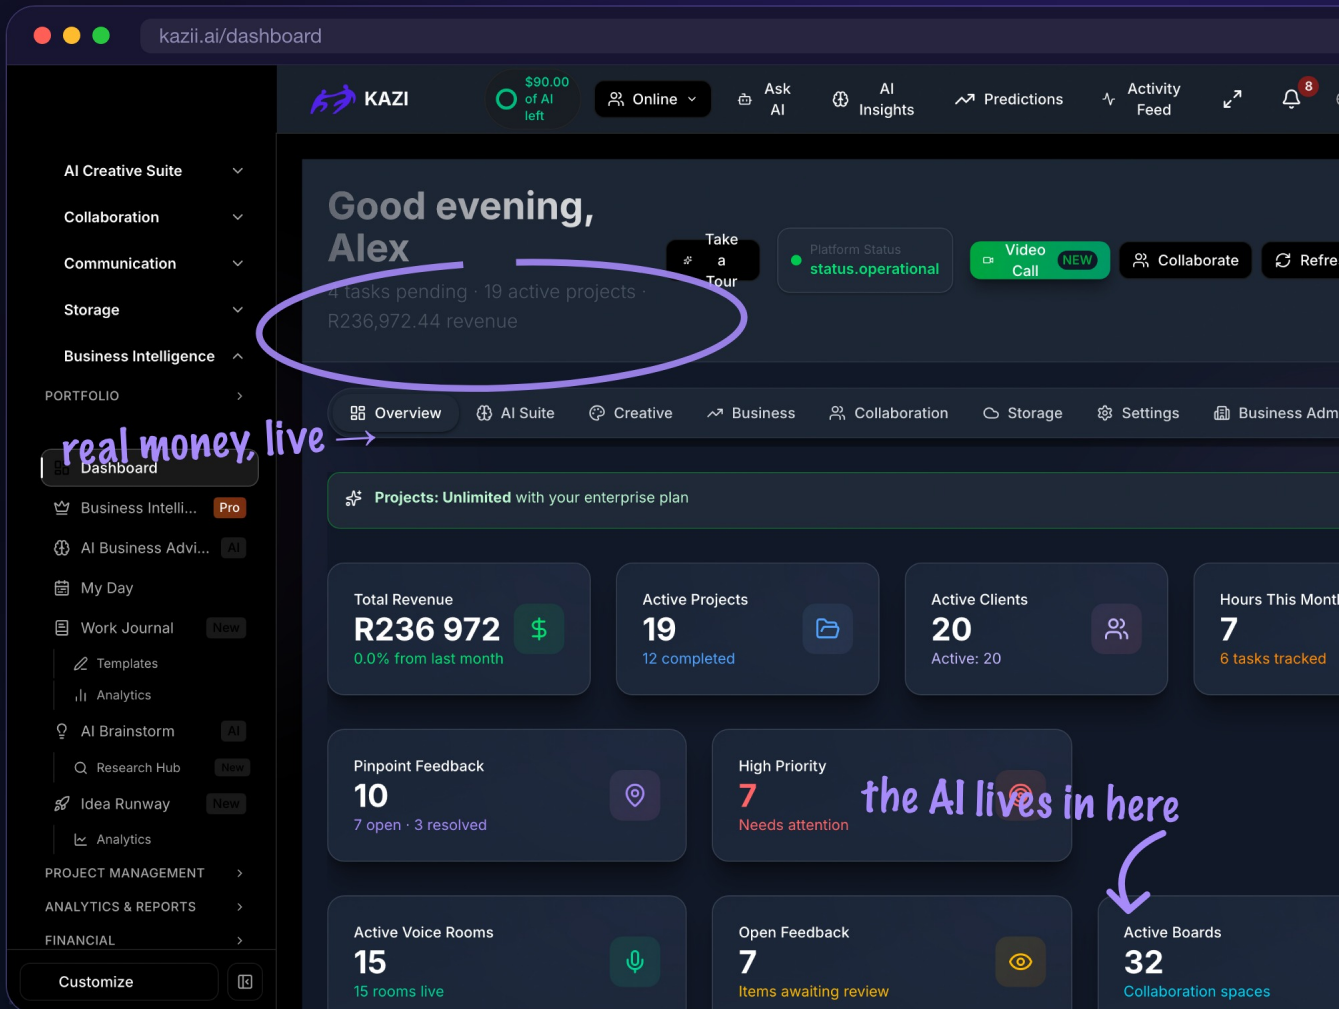

PRODUCT

Projects · CRM · proposals · contracts · invoicing · Paystack payments · escrow · time tracking · files · client portal · calendar · analytics · AI studio (images, video, content, code)

FACTS

Founded by **Thabo Nyembe**
Kazi Ai (Pty) Ltd, Johannesburg
Free to start · paid from \$19/mo

BUILT IN

Track your time.

The invoice drafts itself.

Hours become line items. Line items become an invoice. The invoice gets you paid.

watch the money row

The screenshot displays the kazii.ai dashboard. The top navigation bar includes the KAZI logo, a status indicator for AI (\$90.00 of AI left), and various tool icons like 'Online', 'Ask AI', 'AI Insights', 'Predictions', 'Activity Feed', and a notification bell with 8 alerts. The left sidebar lists categories: AI Creative Suite, Collaboration, Communication, Storage, Business Intelligence, PORTFOLIO, OVERVIEW, PROJECT MANAGEMENT, and ANALYTICS & REPORTS. The 'Financial Hub' is expanded, showing options like Bank Connections, Forecasting, Invoices, Accounting, Tax Intelligence, Budgets, Expenses, Transactions, and Payroll. The main content area is the 'Financial Dashboard', which provides QuickBooks-level accounting and financial management. It includes tabs for P&L Statements, Balance Sheet, Cash Flow, Bank Reconciliation, Chart of Accounts, and Budget Tracking. Below these are 'Related Finance Modules' such as View Invoices, View Expenses, View Vendors, View Transactions, Bank Connections, Recurring Billing, Reports, Forecasting, Payments, Budgets, Tax Intelligence, Accounting, Escrow, Crypto Payments, Audit Trail, Analytics, and Contracts. The dashboard features four key performance indicator (KPI) cards: Total Revenue (R 61 950), Total Expenses (R 12 870), Net Income (R 49 080), and Cash Position (R 49 080). Each card includes a brief description, a trend indicator (up or down arrow), and a line chart showing performance over time. The bottom of the dashboard shows the 'kazii.ai Financial Health Score' (Composite: runway · AR · margin · spend control) and three circular progress indicators for Cash Runway (100%), AR Collection (66%), and Net Margin (100%).

BUILT IN

Escrow that protects *both sides.*

Clients fund the milestone up front.

You deliver. The money releases. No chasing.

The screenshot displays the Kazii AI dashboard interface. The browser address bar shows 'kazii.ai/dashboard/escrow'. The dashboard features a sidebar with navigation options: AI Creative Suite, Collaboration, Communication, Storage, Business Intelligence, PORTFOLIO, OVERVIEW, PROJECT MANAGEMENT, ANALYTICS & REPORTS, Financial Hub (with sub-items like Bank Connections, Forecasting, Invoices, etc.), and a Customize button. The main content area is titled 'Escrow & Payments' with a 'Payout Account Level' badge. It includes a description: 'Secure marketplace payments with multi-party splits, connected accounts, and automated payouts'. Below this are buttons for 'New Escrow', 'Create Payout', '% Fees', and '+ Invite Account'. A summary section shows four key metrics: Released Funds (R 127,000.00, 2 completed), In Escrow (R 95,000.00, 3 active deposits), Platform Fees (R 6,438.00, 2.9% of volume), and Total Volume (R 222,000.00, 5 escrows). A status bar indicates 'Connected' with a sync time of 'less than a minute ago' and links to 'Transaction Analytics' and 'Financial Reports'. A navigation bar at the bottom of the main area includes 'Dashboard', 'Transactions', 'Payouts', 'Accounts', 'Disputes', and 'Settings'. Below this are buttons for 'New Transfer', 'View Payouts', 'Disputes', and 'Reports'. The 'Recent Transactions' section shows a transaction for 'Urban Fitness Website Redesign' for +R 18,000.00, marked as 'processing'. The 'Connected Accounts' section shows 'Total Escrows' and 'Active' status.
